MarCator 1075 R | Digital Indicator

Mahr's digital indicators feature a clear digital display, robust construction, and high accuracy. With a 12.5mm/0.5" measuring range, the MarCator is ideal for static measurements such as lengths, distances and length differences. The 1075 R offers one of three fixed resolution versions, which provides optimum results and values for the gaging application. Mahr's 1075 R digital indicator incorporates the innovative Reference System where zero is stored even when the indicator is turned off, MarConnect interface and IP52 rating.
